# 5 STEPS ON HOW TO MEMORISE NEW SABAQ (NEW HIFZ LESSON)

## THE IMPORTANCE OF NEW SABAQ

New sabaq is the foundation for students memorising the Qu'ran. It enables them to see themselves progressing in memorisation and if the sabaq is learnt thoroughly and recited with no mistakes, the foundation will be solid and revision will be relatively easy for them.

## HOW DO YOU LEARN THE NEW SABAQ?

STEP

1

Recite the new sabaq to your teacher, parent or listen to a recording of any recommended reciter. This is to ensure that there are no pronunciation/harakat/tajweed mistakes. Recite 3-5 times **looking inside the Qur'an**.

STEP

2

Recite 1 verse 10 - 15 times (depending on ability) **looking in the Qur'an loudly, clearly, slowly with tajweed and placing your finger on every word**. Do not try to recite through memory after you have recited it 3-4 times. If the verse is too long, break it up in to 2 parts or 3 parts.

STEP

3

Now try to recite that verse through **memory** - If someone is available to listen to you, then recite to them otherwise recite to yourself. If you are able to recite the verse through memory confidently without any mistakes, then go onto the next verse. If you unable to recite through **memory** then **look in the Qur'an** and repeat the verse 5 or 10 times and try again.

STEP

4

Every time you memorise a verse, go back to the beginning of your new sabaq and recite from the beginning.

STEP

5

Go over it again in the morning or evening before you come to class. If you are travelling to school/Masjid by car or public transport continue reciting the new sabaq in the car or bus, even if you know it.
